Superior Galleries is delighted to offer the following other collections in this auction catalogue including:

- The W.M. Rosene and Walter Rosene Jr. Collection II
- The Bayou Saint James Collection II

Adding excitement to these fresh offerings is the fact that many of the best lots will be sold absolutely without reserves. Lot viewing for our August Denver Elite Auction will be at our Beverly Hills offices by appointment, and without appointment during our regular public exhibition at the Denver Marriott Tech Center in Denver, Colorado.

Colonial Coinage

1776 Continental Currency. "CURRENCY". Pewter. PCGS graded MS-64. CURRENCY variety from an unknown mintage of probably less than one hundred. Pewter, fully struck gem, well centered in original gun metal pewter grey. The obverse is near-proof, the reverse is full proof. While technically possible, a finer example is not likely. This type is the first silver dollar sized coin proposed by the then new Continental Congress, although the reason for their manufacture or even exactly who made them under what authority is currently unknown. Probably from a design by Ben Franklin. There are ten equal and two finer certified by the grading services, making this coin low R7 extremely rare in this grade. While this is no bid or ask on these coins, we sold a lower graded, more common variety MS63 specimen in February 2006 for \$143,750. This finer specimen should bring considerably more. Population of 8, only 2 finer. (#791)

Colonial Coinage and Half Cents

- 2 **1785 Nova Constellatio.** Pointed rays. PCGS graded MS-62 Brown. Pointed Rays, Large Date. A fine type coin, completely original, with a not quite full strike but yellow-brown, slightly proof-like and damage free. The more common variety of the most common date. Struck in very large quantities at a Birmingham Mint in England in 1785 by William Constable as a private business venture, they entered circulation in New York City as a replacement for the then non-existent Federal issues (#813) *Ex: The Good River Collection II.*

- 3 **1787 Massachusetts Half Cent.** PCGS graded MS-63 Brown. Dark, between red-brown and chocolate in color, with a better than average obverse strike and a fully struck up reverse, on smooth, undisturbed fields. Unusually attractive for the type (#296) *Ex: The Good River Collection II.*

- 4 **1783 Washington token.** "UNITY STATES". PCGS graded EF-45 Brown. Washington's Portrait. Draped bust, UNITY. Mintage unknown. An average strike on a brown planchet, with no obvious problems. Fine as a type coin (#689)

- 5 **1791 Washington Cent.** Large eagle. PCGS graded MS-64 Brown. Washington Cent, solid strike with smooth, lustrous, heather brown fields. A first class type coin (#702) *Ex: The Good River Collection II.*

- 6 **1791 Washington Cent.** Large eagle. NGC graded MS-64 Brown. Date on obverse, Large Eagle Reverse. All with lettered edge UNITED STATES OF AMERICA. Light brown with the original mint red peeking through near the rim and legends on the obverse. Nicely struck for the type (#702) *Ex: The Good River Collection II.*

- 7 **1791 Washington Cent.** Small eagle. PCGS graded MS-63 Brown. Date on obverse, Small Eagle Reverse with lettered edge as all are. Light brown with slight traces of the original red here and there. Rarer of the two major varieties. An average strike without any abrasions or impairments (#705) *Ex: The Good River Collection II.*

- 8 **1787. Fugio Cent.** Pointed rays, cinquefoils, "STATES UNITED". PCGS graded MS-66. From an unknown mintage, although there were at one time over a thousand coins in the New York City Bank Hoard. The first coin issued under the Authority of the United States Government. Nicely struck and choice brown. Scarce and desirable (#883) *Ex: The Good River Collection II.*

Half Cents

- 9 **1855 Half Cent** PCGS MS64 RED. PCGS graded MS-64 Red. Mintage of 56,500. A full struck full red gem. A speck of carbon on the reverse and the tiniest of hits on the lips keeps this out of the flawless class. Wholesale bids \$480 but worth a generous premium (#1235) *Ex: The Good River Collection II*

Large Cents

- 10 **1793. Chain reverse, "AMERICA" in legend. PCGS graded VG-8.** Mintage for this date is 36,103 coins. An example of the first regular issue Federal coinage made on coin presses within the US Mint. Well used but original, light brown, eye appealing, evenly worn and damage free, with the exception of a tiny rim bump mentioned only for the sake of accuracy. The entire type is R4 very scarce and desirable in all grades. Trends is \$12,000 on this American classic (#1341) *Ex: The Good River Collection II.*

Flying Eagle Cents

- 11 **1856 Flying Eagle Cent. ANACS graded AU-58 Details Cleaned.** At one time cleaned. Mintage unknown, Breen reports 634, Yeoman 2000. Fully struck, small bag mark on the reverse. Snow variety FE S-3, rare (#2013)

- 12 **1857 Flying Eagle Cent NGC graded MS-66.** Normal Date. A Fully struck gem, faded but original mint Red and a premium example of the type. One of twenty-eight in this grade, none certified higher by either grading service. This coin is Very Rare in this condition. High bid is \$6000 and trends \$7500 (#2016)

- 13 **1858. Small Letters.** From a proof mintage of 200. A fully struck example of Longacre's design that comes to us uncertified. With an ever so light die crack through the N in United and the A in States on the obverse, and slight doubling of the T in cent on the reverse. Sold guaranteed for authenticity only. (#2019) *Ex: The Good River Collection II.*

- 14 **1858. Large letters. NGC graded Proof 65.** Mintage for the date is 80 proofs. Large Letters. A fully struck gem. The obverse is pristine with a glossy haze over a tan, almost brown coin. The reverse the same. Twenty-two coins certified equal and three finer between the two grading services. R5 Rare in this condition (#2042) *Ex: The Good River Collection II.*

Indian Head Cents

- 15 **1872. NGC graded MS-65 Red & Brown.** Flashy red-brown obverse with some red and blue toning on the reverse, all semi proof-like and original, with just a single insignificant spot. Bid is \$1850 (#2104)

- 16 **1886. Variety 2. PCGS graded MS-65 Red & Brown.** From an unknown mintage of this variety. An original red-brown coin, more red than brown. Bids \$900 (#92155) *Ex: The Good River Collection II.*

Indian Head Cents and Lincoln Cents

- 17 **1877. PCGS graded Proof 64 Red & Brown.** From an original proof mintage of 900 coins, and an otherwise scarce date in general. R3 Scarce in this condition. Original flaky red-brown color and quite attractive. In an old or green PCGS holder. Bids \$3000 and trends \$5000 (#2319)

- 18 **1907. PCGS graded Proof 66 Red.** A red brown Proof with a mintage of only 1475 pieces, most of which have been mishandled since manufacture. Only ten certified in this grade, with just three finer by both services, making this coin R6 very rare in this condition. PR65 coins bid \$1500, and PR66 coins trends \$3700 (#2410) *Ex: The Good River Collection II.*

- 21 **1914-D. ANACS graded Details of MS-60 Cleaned.** Cleaned at one time, but with even smooth brown surfaces and a sharp strike for the issue. A key date from the series. (#2471) *Ex: The Good River Collection II*

Lincoln Cents

- 19 **1909-S. VDB. PCGS graded MS-65 Red & Brown.** From a mintage of 484,000 coins. A favorite of the collectors, and the most recognizable date in the entire Lincoln series. The Well Defined Initials and Periods variety. Flawless Red Brown Surfaces (#2427) *Ex: The Good River Collection II.*

- 20 **1909-S. VDB MS64. RAW.** Appearance of MS64RB. This uncertified classic collectible and one of the one hundred most recognizable coin rarities is an original Red Brown. This is the soft VDB with the sharp periods variety. (#2427) *Ex: The Good River Collection II.*

- 22 **1917. Doubled Die Obverse. PCGS graded MS-66 Red.** From an unknown mintage of this variety. Full doubling on the nine and seven in the date, and on most of the letters on the obverse legend. Normal reverse die as they all are. FINEST KNOWN certified from less than eight known certified in all grades of Uncirculated by both grading services (#92497)

- 23 **1955. Doubled die obverse.** NGC graded MS-66 Red. Mintage unknown but estimated by Breen at 20,000. Doubled Date 1955/1955. Fully Struck Fully red, pristine, superb gem cent. The obverse with a tiny carbon spot behind the head not visible without a loop otherwise flawless, the reverse has a small handful of tiny ticks so insignificant that also can not be seen without a loop. **FINEST KNOWN (#2827)** Ex: *The Good River Collection II*.

- 24 **1955. Doubled die obverse.** NGC graded MS-63 Brown. The classically collectible Brown doubled die cent with an unknown mintage but estimated by Breen at 20,000 and Engle of the US mint at 24,000, the coin was released directly into circulation at the time and uncirculated survivors are R2 Not Common, and coins better than this are Very Scarce. CU priced at \$2700 (#2825) Ex: *The Good River Collection II*.

- 25 **1984. Doubled ear.** NGC graded MS-68 Red. From an unknown mintage of this variety. Doubled Ear, that is two ears, one under the other on this obverse. Full Red gem uncirculated. Rarer than the regular obverse of the same date from Red Book prices (#3062)
- 26 **Bulk Lot of 20 Lincoln Cents.** Lot of 20 coins. - 96 **1913. Type 1. NGC graded Proof 66.** From center to periphery luminous nickel luster glows. What one sees usually on this mint's coinage is a very convincing impression left by the recoil of the dies; greatly to our pleasure and the bidders' enjoyment, and confirming this observation, that is exactly the case here. This coin is sharp, very sharp, for a desirable Type 1 (buffalo on mound) Proof.

Proof coins of the Indian head/buffalo nickel type were struck for sale to collectors from 1913 through 1916 and again in 1936 and 1937. The Proof five-cent pieces of 1913-16 are normally referred to as "matte" Proofs, but this term is misleading. True matte Proofs have a dullish finish completely dissimilar to the surfaces of normal circulation strikes, and this technique of Proofing was used by the Mint exclusively for its gold coinage of 1908 and 1911-15, as well as for isolated issues of later years that were not sold publicly (commemorative half dollars).

The Proof nickels of 1913-16, like the cents of those years, actually possess a satin finish. This varies in texture slightly from one date to the next and even within a single year's coinage. When found pristine, these coins are extremely beautiful and visibly distinctive from currency strikes (#3988)

- 97 **1913. Type 1. NGC graded Proof 66.** From a proof mintage of 1520. Another fully struck gem in every sense of the word. Shimmering original luster and virtually without impairments (#3988) *Ex: The Good River Collection II.*

- 98 **1913. Type 1. PCGS graded Proof 65.** From a proof mintage of 1520 coins. With more detail than any of the later date proofs of the same design. Matte, with touches of grey green gold luster (#3988)

- 99 **1913. Type 2. NGC graded Proof 66.** From the original proof mintage of 1514 coins of the second style or Type Two of the first year of issue. This brightly lustrous example is well struck, clean and spotless. High Bid is \$2150 and trends at \$4000 (#3990) *Ex: The Good River Collection II.*

- 100 **1914. PCGS graded Proof 66.** From a proof mintage of 1275. A nicely made example, fully struck up on both sides, with minty fresh grey and gold over the luster. Bids \$1970 and trends \$4000 (#3991) *Ex: The Good River Collection II.*

Draped Bust Half Dimes

- 114 **1800. "LIBERTY" variety.** NGC graded AU-50. Mintage for the date is 40,000 coins, mintage for this variety is estimated at 16,000 by Valentine and Breen. LIBERTY, with the top of the R broken off in the die to suggest a K. Medium grey toned obverse, light grey reverse, with a good strike except the center reverse where it is always weak on this variety, and honest wear, with no problems, scratches or damage common with early coins. One might say this is the best that you can expect for the grade (#4265)

Capped Bust Half Dimes

- 115 **1833.** NGC graded MS-66. Scarce, the variety of the Wide Even Date with the O in OF repunched over a much larger O. Toned steel-grey, gold and blue. Fully struck. The line on the obverse may appear to the eye as a scratch but thankfully it is only a break in the luster when examined under a twenty-eight power loop. There is however, a small hit at the eagle's beak that keeps this little beauty out of the next grade. Bids \$3500 and trends \$4000 (#4280)

- 116 **1834.** NGC graded MS-66. Unstoppable luster splashes brilliantly beneath the toning highlights of this admirable capped bust coin, while gusts of faint toning form an aura at the edges of the design elements of this satiny gem. The strike, as expected, is strong enough to earn even a critic's approval, save for a limited area of lightness at the eagle's wing (#4281) Ex: *The Good River Collection II*.

- 117 **1835. Large date, large 5¢.** NGC graded MS-68. From an unknown mintage as coins from 1835 and 1836 were mixed at the Mint before delivery, but Breen supposes 2.7 million. A boldly struck, frosty white coin, completely free of marks, or impairments. POP 1/0, between both services, rare. (#4282) Ex: *The Good River Collection II*.

Seated Liberty Half Dimes

- 118 **1838. Stars, no drapery.** NGC graded MS-65. The Philadelphia Mint in 1838 added stars to Gobrecht's "starless" motif of 1837 and continuing through November 1840, created the familiar (and short-lived) "no drapery" Type. It was produced in only three calendar years. The first year 1838 enjoys large collector interest which we suspect arises from the constant availability in nice frosty Mint condition coins like the present specimen. For the collector who wants to add a superior bit of Americana to his or her coin collection. Both sides are naturally toned; both sides enjoy full frosty originality. While this isn't the single finest-graded 1838 No Drapery half dime, it is certain to please anyone who studies it. Bids \$1700 and trends \$2500 (#4317)

- 119 **1853. Arrows.** NGC graded MS-66. Arrow at Date, just a three year type. A fully struck completely white coin, on an ever so slightly grainy planchet with just a trace of clash marks and a light die crack that run across STATES OF. (#4356) Ex: *The Good River Collection II*.

Seated Liberty Half Dimes and Draped Bust Dimes

- 120 **1854. NGC graded MS-66.** Fully struck, every star is crisp, the entire coin is bold and clear. The toning is original, gold and gun-grey. - 121 **1857. PCGS graded MS-65.** Open 5 variety. Well struck, better on the left obverse than on the right, where it is a bit soft in the stars. The entire reverse is strong. White devices on a lightly golden field. Bids \$1075 and trends \$1500 (#4365)

- 122 **1862. NGC graded MS-65.** A sparkling and lustrous toned gem, a satiny beauty with fully defined design features under the natural grey patina. Bid \$750 and trends \$1200 (#4381)

- 123 **1871. NGC graded MS-68 Star Designation for Eye Appeal.** NGC Pop: 1, with none finer! (68 Star). Electric blue and nice purple with warm amber throughout with fantastic smooth-grain, vibrant luster surfaces, there are no impairments on either side and the color is outstanding, two of the reasons why it has earned NGC's Star "seal of approval" as a coin with "eye appeal." The pressure transmitted from the die to the blank reveals itself in sharp devices on both sides (#4398) *Ex: The Good River Collection II.*

- 124 **1872. NGC graded Proof 67.** From a proof mintage of 950. Toned purple and well struck. Just five equal and only one finer certified by both grading services. Extremely Rare in this condition. Bids \$4520 and is listed in CU at \$6500 (#4455) *Ex: The Good River Collection II.*

A war was raging across portions of the new American landscape when this dime was minted in 1814. The British, our adversaries in the War of 1812, set into motion their plan for a three-part invasion of U.S.: Chesapeake Bay, Lake Champlain, & the mouth of Mississippi River. The British were eventually turned back at Baltimore harbor. But on August 24-25, 1814, their forces burned Washington, D.C. and the Capitol. President and First Lady Madison fled the White House. Then, in September 1814, the Battle of Plattsburgh (Lake Champlain), where the U.S. forces secured our northern border with a stunning victory over a larger British force. On December 15, 1814, The Hartford Convention formed by a group of Federalists to discuss secession from the Union. The Convention's proposed seven amendments to protect the influence of Northeastern states. Finally, on December 24, 1814, one day before Christmas, the Treaty of Ghent was signed ending hostilities. The British and American diplomats agree to return to the status quo from before the war. A busy year for such a little dime to slip past the avaricious hands of merchants and the public in its full, original pristine condition!

POP 1, none finer. CDN wholesale for a mere MS65 is almost \$10,000 and CU values these coins at \$27,500 at this grade! (#4488) *Ex: The Good River Collection II.*

- 156 **1889. PCGS graded MS-67.** With a very short mintage of just 12,000 coins, this mottled grey gem may very well be from the original roll that Arthur Kagin owned in the early 1970's. CU priced at \$6500 (#5522) *Ex: The Good River Collection II.*

R5 Rare in this condition, with just eight examples certified finer by either grading service. Bid is \$8000, with a recent sale at \$12,075 at auction (#5725)

- 187 **1918-S, 8 over 7. PCGS graded MS-64.** One of the best preserved examples of this classic rarity, this one has well developed toning with underlying frosty luster and is generally well struck. In fact, most of the head on Liberty is present, but not quite sufficient to earn it a "full" rating. We must note that this date is nearly impossible to find with a full head since the design of the coin rarely allows the metal to flow into the die this close to the rim. The surfaces remain quite clean, with just a couple of tick marks hidden on the devices.

The 1918-S, 8 over 7 overdate is one of the most famous rarities of the last century. Few were created, all from a single obverse die, and they are eagerly sought by collectors, have been since their discovery. Collectors first noticed the variety in 1937, and retrieved most survivors from circulation then and during the next few years. Perhaps one thousand pieces exist, the grading services have seen several hundred in all grades, no doubt including duplicate submittals, and it is likely that more are out there in sitting in old Wayte Raymond albums, having been put away decades ago and forgotten. This handsome MS64 has the minute diagnostics noted in the Breen Encyclopedia. The overdate feature is plain with or without a glass. Apparently in the rush to get dies prepared, one 1918 die received a blow from the 1917 master hub, then the press was switched to the 1918 hub, and the die was struck again. No one noticed the overdate, or if they did, no one cared, and the die was shipped and put into production at the San Francisco Mint, much to the amazement of collectors.

A recent comparable specimen in PCGS MS64 brought \$36,800 (7/05), and a mere PCGS MS63 sold for \$35,650 in February 2006 (#5726) *Ex: The Good River Collection II.*

Lightly grey with a current CCE bid of \$6200, which seems low since a 65 coin is worth more than twice that if you could find one (#5731) *Ex: The Good River Collection II.*

- 190 **1920. PCGS graded MS-65 Full Head.** Full Head gem uncirculated, overall bright and untoned with just tinges of russet toning. Sharply struck as is commensurate with the grade. A die crack through the top right star to the eagles wing. Bids \$1825 with auction records to \$3725 (#5735)

Standing Liberty Quarter Dollars

194 **1924-S. PCGS graded MS-67.** A full struck lustrous gem uncirculated coin. Extraordinary sparkle and glitter. Only six coins equal, just one finer certified between the two grading services. Extremely Rare in this condition (#5750)

195 **1926. PCGS graded MS-66 Full Head.** Another date that is usually soft, this example is fully struck with a full head. A gem with extraordinary original mint brilliance (#5755) *Ex: The Good River Collection II*

196 **1926-D. NGC graded MS-66 Full Head.** A fully struck, full head, superb gem standing quarter. Fervent, almost beaming unbroken original mint luster covered ever so slightly with a thin film of opalescent blue and grey toning. One of twelve coins equal, with none finer at either grading service (#5757)

- 197 **1927-S. PCGS graded MS-65 Full Head.** Mintage for this date is only 396,000 coins. Fully struck full head and full drapery. Gem on the obverse, a beautiful reverse which is probably a higher grade than the obverse. Soft white, almost matte original mint fresh frost on the high points of the body and shield, brilliant without abrasions, marks or impairments of any kind in the fields and just a coin of tremendous eye appeal. This cataloger has not seen a finer example in thirty years. There are six certified equal and three finer between the two grading services since 1986, putting this coin at the top of the condition census. The optimum coin for the grade and virtually unimprovable. A once in a life time opportunity for the specialist (#5765)

- 198 **1927-S. PCGS graded MS-65.** Mintage of 396,000. A nicely struck coin on the obverse, fully struck coin on the reverse. An original coin in full bloom. In a first generation PCGS holder. Bids \$8900 and trends near \$12,000 (#5764)

- 199 **1927-S. PCGS graded MS-62.** Mintage of 396,000. It is not often that you see more than one of this date in an auction but here it is. Nicely struck and fully brilliant except where it is turning gold near the rims, with an absolute minimum of light minor marks expected on a coin of this grade. In a first generation PCGS holder. Bids \$6300 and trends \$10,000 (#5764) *Ex: The Good River Collection II.*

- 200 **1928-S. PCGS graded MS-66.** With the large S mint mark. A fully struck up, superb gem quarter. White with a wisp of original light grey toning. Bids \$1060 (#5770) *Ex: The Good River Collection II.*

- 201 **1930-S. NGC graded MS-68.** From an original mintage of a million and a half. This scarce coin has most of a head, perhaps ninety-eight percent but not quite full, otherwise fully struck both obverse and reverse. Lightly toned over fabulous mint luster. The luster is unbroken and there is a complete absence of abrasions or impairments. This coin is unique in this grade and finest known of the certified examples (#5780) *Ex: The Good River Collection II.*

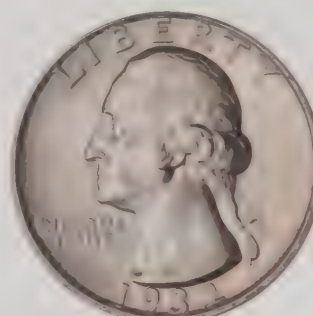

Washington Quarter Dollars

- 202 **1932-D. PCGS graded MS-65.** A frosty, satiny pale brown and grey toned gem with intense cartwheel luster pushing through on both sides. Nicely struck as well, without any hint of weakness at the hair or on the eagle's chest feathers and wings (#5791) *Ex: The Good River Collection II.*

- 203 **1932-D. PCGS graded MS-64.** Mintage for this coin is 436,800. A bright white well-made coin with an unusually strong motto, not common from this mint. Long a key date in the series, from a mintage of only 436,000 coins. Always in demand, the date bids \$5700 and trends \$8000 (#5791) *Ex: The Good River Collection II.*

- 204 **1932-D. PCGS graded MS-62.** One of the key dates of this popular series with a mintage of 436,000. The lightly repunched mint mark variety. Fully struck, lustrous with just a hint of toning and completely original (#5791)

Washington Quarter Dollars and Flowing Hair Half Dollars

- 206 **1932-S. PCGS graded MS-64.** From a mintage of 408,000 coins. Another key to the series with a mintage of just over 400,000 makes this another date that is always in demand by collectors of this popular series. Just the smallest hint of grey and gold toning on the obverse, and the reverse is white and even nicer. This coin looks like a gem and may very well be. High bid is currently \$1850 and trends \$3000 (#5792) *Ex: The Good River Collection II.*

- 207 **1932-S. PCGS graded MS-64.** Mintage of 408,000. A lightly toned fabulous original example of the date. Bids \$1925 and trends \$3000 (#5792) *Ex: The Good River Collection II.*

- 208 **1932-S. PCGS graded MS-64.** Second in rarity to the 1932-D in the eyes of many, yet the 1932-S has a lower mintage (408,000 pieces). As often happens, chance gave the nod to 1932-S in the number of choice mint quality pieces saved at the time of issue. Natural original toning (#5792) *Ex: The Good River Collection II.*

- 209 **1940-D. NGC graded MS-67.** A lightly grey and gold originally toned full struck gem. Fifty-five certified in this grade, and only one finer between the services. Bids \$1250, but trends \$3500 (#5812)

Flowing Hair Half Dollars

- 210 **1794. NCS graded Details of About Uncirculated Whizzed.** Mintage for this date is 23,464 coins. A nicely struck coin, full hair and stars on the obverse and eagle's head on the reverse. Polished or whizzed sometime in the late 1960's or early 1970's before the process became less widely used. This coin is guaranteed for authenticity only

Although NCS states whizzed, we disagree. This is an extremely attractive coin possibly cleaned a long time ago so that the surfaces underneath years of color may not be pristine. It is difficult to say how disturbed the surface may be, but the color strike and overall appeal of this first year denomination coin is better than most. A problem free coin with this much detail, luster and strike would approach six figures. A mere AU-55 NGC sold for \$69,000 in January and we sold a PCGS AU-50 for \$73,600 in March 2005. This coin has more details than the 50 coins we sold. Although not worth the \$70,000, this should command a hefty price. (#6051)

Draped Bust Half Dollars

211

1796. 15 stars. NCS graded Details of Very Fine Repaired, Whizzed. With a mintage of 934 for this variety out of a total mintage of all types of 3,918. 15 stars on obverse, with date high and evenly spaced. Diagnostic die crack in lower fold of drapery to edge. Reverse, with fraction 1/2 well centered and with characteristic die defects in C of AMERICA. An extremely rare coin, perhaps less than three dozen known in all grades, this one light grey and pleasant to the eye. An affordable example of this key and very rare type. Overtone-101

Very strong detail and still attractive despite being worked upon. This is a rare opportunity for a collector to acquire a very presentable coin well below the value of a problem free coin. Also worth mentioning is NCS States Detail of VT. This is conservative as nearly extremely fine detail is apparent on this item. Please inspect closely but prepare to bid aggressively as very few auction appearances occur for grades of fine to extra fine. (#6057)

A light blue grey over tons of the original mint luster. Even wear with all the eye appeal and detail any collector could wish for in a type coin, lacking bag marks, scratches and all other forms of impairments on this early type. - 219 **1818, 8 over 7. Large 8. NGC graded MS-63.** Large 8 over 7. Mintage for this variety is unknown. Very well struck, some will call it full struck, with a crisp overdate visible to the unaided eye. The obverse with a bag mark in the chin, the reverse with light clash marks, a planchet flaw near the motto and a single mark above the eagle's right wing. The entire coin a lovely light ash grey with just a hint of rose and blue. One of nine equal, with seven finer between the two services. Bid is \$4050, but the date has sold between \$4800 and \$5520 five times in the past three years (#6115)

- 220 **1821. NGC graded MS-61.** A first class type coin, nicely struck up on every star, and original Russet Red, Purple and Grey on both sides. A fresh, brilliant look of a superior example for the grade (#6128)

- 221 **1823. PCGS graded MS-64.** Patched 3, Overton 102 variety. Fully struck, bright lustrous with the appearance of a coin of a much higher grade. Only upon close examination does one note the barely visible marks on and in front of the face. Only eight certified in this grade, with just three finer between both grading services. This coin looks at first glance like a full gem but alas, so close, it is not, with just the most insignificant of minor marks on the obverse. Bid is \$3000, much too low for this specimen (#6144)

- 224 **1829. PCGS graded MS-64.** Normal Date. An unusually beautiful coin covered in a light original grey and gold toning with great visual appeal. With the top of the 2 repunched and the Mint Mark widely spaced as all are. Obverse designed by Robert Ball Hughes, the reverse by James Barton Longacre, and the dies engraved by William Barber. Due to politically motivated orders from the Philadelphia Mint, the production at the Carson City Mint was at first artificially slowed down as part of an orchestrated campaign to close the entire mint, which was seen by Philadelphia as competition for government resources. Claims were circulated that the coins struck at Carson City were substandard, light weight, and contained more alloy and less silver than as required by the authorizing Act of January 18th, 1837 for fineness and March 3rd, 1865 for the inclusion of the motto on the reverse die. In 1873 the Bureau of the Mint ordered sample coins from Carson City Mints various deliveries and had them shipped to Philadelphia for testing. Sure enough, the samples were found to be substandard and illegal. Rather than correct the problem, the Mint authorities in Philadelphia publicly fired the Superintendent of the Carson City Mint with as much publicity as they could muster. The suspect coins were collected at banks or by other government authorities and returned to Philadelphia for melting and recoinage into the safe Philadelphia product. In total, there are two hundred thirty-one survivors of the original mintage certified in all grades, leaving a seven percent survival rate for the entire mintage. The only obverse contact mark appears on the cheek to the right of the lips. The only reverse contact seems to be a slight nick on the second bundle of leaves under the right wing of the eagle, you might want to use magnification to find it. As to the design, there is only slight deviation in the sharp relief seen, mainly in the centers of the coin where the design failed to completely fill the dies as always. While the date typically comes with a weak strike, the obverse is a better than average strike and unusually clean for the date, particularly the face. This coin is without bag marks or impairments. The Reverse is similarly clean. There are only eleven certified finer by both of the grading services. Bid is \$5500 and trends is \$8500 (#7356) Ex: *The Good River Collection II*.

1921. PCGS graded MS-65. A Full gem, completely free of all distracting marks, in fact just a couple of tiny marks away from the next higher grade. In an old green PCGS holder. Bids \$1850 (#7356) Ex: *The Good River Collection II*.

1925-S. NGC graded MS-65. A coin whose most arresting aspect is its frosted cartwheel mint luster. Full spinning luster on both sides, and of the gem quality that is so rarely seen on the S-mint dates in the Peace dollar series. Practically fully struck, with just a suggestion of weakness at the middles (#7366) Ex: *The Good River Collection II*.

1927-S. PCGS graded MS-65. Mintage for this coin is 866,000. A lightly toned and very beautiful coin. Essentially as made, there are no marks worthy of mention on this coin. There are only three finer that have been certified by the two grading services. Bid is \$8500 and trends \$14,000 (#7372) Ex: *The Good River Collection II*.

1937 Antietam Half Dollar. NGC graded MS-65. From a mintage of 18,028. A still-lustrous and well-preserved specimen with pleasing gold color on original uncleaned surfaces. A few light marks in the field, otherwise very choice, and a beauty in this high grade. Bids \$735 (#9229)

1936-D Arkansas Half Dollar. PCGS graded MS-67. From a mintage of 9,660 coins. Some lovely crimson color at the rim. The otherwise silvery hue deepens to golden and pinkish shades in areas. A superb gem of this Type. Struck to commemorate the 100th anniversary of the admission of Arkansas to the Union, June 15, 1836. Two Art Deco heads are Liberty and (evidently) a Quapaw Indian, the tribe that inhabited what would become the Territory of Arkansas. Edward Everett Burr designed the piece along with the help of several others. Sets of three, one from each mint, were sold in 1935-39 at ever-escalating prices. There was active speculation in the issue at the time, along with the other P-D-S commemorative sets struck during the 1930s. One of eighteen graded, none finer by either service. R6 Very Rare in this condition (#9238)

1936-S Bay Bridge Half Dollar. PCGS graded MS-66. Lustrous with smooth frostiness from the dies, and ample toning from the issue card, no doubt. A coin encased in one of the pre-1989 PCGS holders. Bids \$485 (#9254)

Bids \$420 (#9320)

- 477 **1925 Lexington-Concord Half Dollar.** PCGS graded MS-65. Mintage of 162,013. Lightly toned. A simply exquisite gem, the booming white surfaces seem to gyrate to-and-fro with full, starbright textured luster underneath the color. In an old PCGS holder. Bids \$470 (#9318)

- 478 **1921 Missouri Half Dollar, 2 x 4.** PCGS graded MS-65. One of only 5000 struck, there are only twenty-two finer certified. Just a touch of toning near the obverse rim. Bid is \$4300 and trends \$6500 (#9331) *Ex: The Good River Collection II.*

- 479 **1921 Missouri Half Dollar, no 2 x 4.** NGC graded MS-65. An outrageously fresh looking example of this often problematic 2x2 variety, with stark contrast between the satiny fields and significantly bold devices. Mintage was very low: 6,000 pieces (#9330) *Ex: The Good River Collection II.*

- 480 **1923-S Monroe Doctrine Half Dollar.** NGC graded MS-66. From an original mintage of 274,077 from the San Francisco Mint. Nicely Struck. Fully Bright with no notable marks. Bids \$5600 and trends \$8000 (#9333) *Ex: The Good River Collection II.*

- 484 **1915-S Panama-Pacific Half Dollar.** PCGS graded MS-66. Mintage for this date is 27,134. A Well Struck, Light Grey with light Gold toward the rims. Bids \$3350 (#9357) *Ex: The Good River Collection II.*

- 499 1863 Pattern Half Dollar. Silver, reeded edge. Judd-340. Pollock-412. NGC graded Proof 65. Judd 340 1863 Half Dollar Regular dies but with a different motto. From a population of about eighteen. A lower grade example sold three years ago for \$4600 (#60502) Ex: *The Good River Collection II*.

- 500 1870 Pattern Quarter Dollar. Copper, plain edge. Judd-915. Pollock-1011. NGC graded Proof 66 Red & Brown. Judd 915 1870 Standard Quarter design copper with plain edge. Copper with blue over beautiful proof surfaces. Six known (#71159) Ex: *The Good River Collection II*.

- 502 **1875 Pattern Three Dollars.** Aluminum, reeded edge. Judd-1437. Pollock-1580. SEGS graded Proof 63. Judd 1437 1875 Three Dollar Gold, the regular dies struck in aluminum with the usual reeded edge and then Gilded. Population estimated at three (#61744)

Error Coins

- 503 **1854 Coronet Head Half Cent.** NGC graded MS-66 Brown. From a mintage of 55,358 coins. 15% straight end clip - straight end clips on Half Cents are seldom found, especially in such a high state of preservation. For someone to have put this coin aside over one hundred fifty years ago, probably because of the error, is most unusual. This is perhaps, not only the largest straight end clip known on a Half Cent, but also the highest graded known on any Half Cent clip planchet (#1230)

- 504 **1909 Lincoln Cent.** VDB. PCGS graded EF-40 Brown. Flipover double struck in the collar. A major error in Lincoln Cents such as this is rare in the 1920's and 1930's, almost unheard of before 1919, and this 1909 V.D.B. Lincoln Cent is no exception. This coin was struck once, then flipped over and struck 180 degrees opposite the first strike. On the reverse, major portions of "In God We Trust" (#2425)

- 505 **1904 Liberty Nickel.** NGC graded MS-64. Struck on a foreign planchet weighing 2.7 grams/41.65 grains. Early off-metal U.S. Type coins are always very rare and eagerly sought. This rare Mint State example might be struck on a Haiti 5 Centimes, which should weigh 44 grains. It is within tolerance for that coin. Most of the known Liberty Nickels on foreign planchet such as this are well circulated, and this MS-64 example is the highest grade known of this error type (#3865)

- 506 **1906 Liberty Nickel.** PCGS graded AU-55. Struck on a Cent planchet intended for Indian Cents. There are six known of this date. This Liberty Nickel is well centered on the cent planchet, and shows the full date. A popular dramatic off-metal striking of a U.S. Type coin (#3867)

- 507 **1919 Buffalo Nickel.** NGC graded AU-50 Brown. Struck on a Cent Planchet-Another popular and rare off-metal. This Buffalo Nickel, like the Liberty Nickel above, was also struck on a planchet intended for that year's Cent. A dramatic and popular "Copper Buffalo" off-metal striking (#3941)

- 508 **1835 Capped Bust Dime.** NGC graded VF-25. Double Struck and Obverse brockage. Struck normally the first time, this 1835 Bust Dime was struck a second time 85% off-center. On the reverse, "America" can be easily seen under "United Sta". For the second strike, a previously struck coin was lying on the obverse, which caused a nice brockage indentation from that other Bust Dime, from 6:30-8:30. This unique Bust Dime has two different major mechanical errors on it (The only known with a brockage strike on the same coin). (#4527)

- 509 **1890 Liberty Seated Dime.** NGC graded MS-66. Uncentered broadstrike out of the Collar - This blank planchet was lying on top of the collar instead of being in the collar, when it was struck. It looks 5% off center, and because the denticles 12:00-12:30 obverse, and 5:30-8:00 on the reverse are partially missing; an argument could be made that this could be considered a true off-center strike (denticles are part of the die design). In either case, this is an incredibly rare high grade example of a mis-struck Silver type coin that would be of interest to an error collector, as well as a Seated Liberty Dime Collector (#4704)

- 510 **1868 Liberty Seated Dime.** PCGS graded Proof 64 Cameo. Mintage of this date is 600 proofs. Variety 105-Obverse 5 Blundered date. This very dramatic mis-punched die has two extra "1"s punched into Liberty's base. This 1868 Seated Liberty Dime was discovered by Walter Breen, and first listed by Kam Ahwash. It is listed in Breen reference work as Breen #3345 (#84761)

- 511 **1965 Roosevelt Dime.** NGC graded AU-58. Struck on a (1964) Silver Dime planchet. One of the most famous transitional off-metal strikes—This first-year-of-clad-issue 1965 Roosevelt dime was struck on a leftover 90% Silver dime planchet from 1964. Seldom offered, this coin has original luster, and is quite pleasing to the eye (#5130)

- 512 **1999-P Delaware Quarter Dollar.** PCGS graded MS-66. Struck on an Experimental planchet. This coin and the following two examples (Georgia & Connecticut) were struck on Experimental planchets for a possible new and unused composition for the soon-to-be-issued Sacagawea Dollars (#5944)

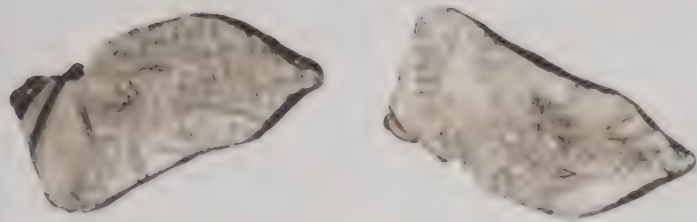

- 513 **1999-P Georgia Quarter Dollar.** PCGS graded MS-65. A Georgia Quarter struck on an experimental planchet, or more likely a planchet intended for the yet to be issued Sacagawea Dollar. In either case, a rare error (#5950)

- 514 **1999-P Connecticut Quarter Dollar.** PCGS graded MS-67. A Connecticut Quarter struck on an experimental planchet, or more likely a planchet intended for the yet to be issued Sacagawea Dollar. Again, in either case an unusual and rare error (#5952)

- 515 **2000-P Maryland Quarter Dollar.** PCGS graded MS-66. Struck on a Nickel planchet - With the exception of Delaware, other State Quarter off-metals range from "unknown" to 2-4 known, in general. There are only three 2000 Maryland State Quarters struck on a nickel reported in the past six years, and this coin is tied for the finest known (#5956)

- 516 **2000-P South Carolina Quarter Dollar.** ANACS graded MS-62. Struck fourteen (14) times on the tip an aluminum Feeder Finger. Although ANACS described it as struck on aluminum scrap, the few examples struck in 1999, and the first two States of 2000, are known to have been struck on the actual ends of the Feeder Finger for the new types of Shuler presses installed at the Philadelphia Mint. Not only is this particular States Quarter struck fourteen times, but it is absolutely unique as the only known example of such on a South Carolina quarter. A most dramatic and unique error coin (#5958)

- 517 **1855-O Liberty Seated Half Dollar. Arrows.** NGC graded VF-20. Struck ten percent off center, this is the only New Orleans With Arrows off-Center Seated Liberty Half Dollar known. There are probably less than three Arrows Halves off-Center, if that many, and this coin is still showing original luster on both sides near the devices, and as such is unique (#6283)

- 518 **1961-D Franklin Half Dollar.** NGC graded AU-58. Struck on a Nickel planchet - An extremely rare off-metal for this Franklin Half series. This 1961-D Franklin Half was struck on a Type I (no rim) blank intended to be struck as a nickel. The coin has original luster, with just the lightest touch of rub on the obverse and reverse (#6681)

- 519 **No Date.** PCGS graded EF-45. Struck 25% off-Center at exactly 6:00. Morgan Dollars this far off-Center are excessively rare. This piece is from the New Orleans Mint, whose scarcity of this error type somewhat compensates for the lack of date showing on a Silver Dollar struck this far off

- 520 **No Date.** PCGS graded MS-65. Struck on a Clad Half Dollar planchet intended for a Kennedy Half Dollar. This Ike Dollar is "after 1973" type based upon the reverse design. As an obsolete type coin, all Ike Dollars on U.S. wrong planchets are rare and always difficult to find. This PCGS gem MS-65 is well struck and lustrous.

- 521 **2000-P Sacagawea Dollar.** NGC graded MS-65. Double denomination. A flip over strike on a previously struck Maryland States Quarter. This fully brilliant example has the "P" Mintmark from the quarter showing at 90-degree angle just below the baby's head. Numerous other design elements from the initial Maryland Quarter shows on the obverse, especially so on the reverse. There is an estimated seven to ten known examples of this most unusual and rare "Clad Sac" Double Denomination error coin (#9584)

- 522 **2000-P Sacagawea Dollar.** PCGS graded MS-64. Double-Denomination Flip-over strike on a previously struck Maryland States Quarter. Double Denominations have always been scarce errors, especially on higher denomination coinage. Some of the lettering and reverse design of the Maryland quarter is easily visible on the obverse left half of this coin. On the reverse portions of Washington's hair and other design elements are visible (#9584)

524

Liberty Gold Dollars

- 525 **1849. No L NGC graded MS-68 STAR.** From an unknown mintage, but Breen and Akers both estimate 1000, which seems high based on the numbers of survivors. Smaller Head with No L for the engraver Longacre at the neck. A fully struck proof-like Cameo superb gem example of the type. finest known of the three certified in this grade. There is a certified proof of this date but this is the finer of the two coins both technically and from the point of view of eye appeal. Rare and desirable in this grade. This very coin sold for \$31,000 in 1998 (#7501) *Ex: The Good River Collection II.*

- 526 **1849-D. PCGS graded AU-58.** Mintage for this date 21,588. choice and well struck. Bids \$3100 and trends \$4500 (#7507)

Capped Bust Quarter Eagles

- 568 **1804. 14 stars on reverse. PCGS graded AU-55.** Mintage of 2324 coins of this date. All with the reverse of 1798. Choice, boldly struck on a planchet with adjustment marks on the left obverse at the mint to reduce its weight to the legal limit before striking. The example is bright on the obverse and proof-like on the reverse which is also not that unusual for coins with limited production runs such as this one. Completely free of all forms of damage and foul play. Rare with thirteen coin of equal quality and sixty-five certified finer between both grading services. Underpriced by date and type besides rarity. Bid in AU58 is \$14,500 (#7652)

1807. PCGS graded MS-62. Mintage for this date 6812. All with seven by six stars, but without the die crack at the date often seen. A strong strike, just a little weak in the obverse center as always and with one star on the reverse which I cannot now recall ever having seen before, but as it is not now noted in Dannreuther, is must be the strike on this particular example because a single pair of dies was used on this date. Thirty-two equal and just fourteen finer certified between both of the grading services, making this example rare in this condition. Staggeringly underpriced for type and rarity. This coin is extremely PQ and we feel it is finer than most MS63 specimens we have seen. (#7656)

1839. PCGS graded Proof 62. Mintage unknown but Breen estimated three from his notes, there are two certified in all grades, and they are both the same grade, and they may very well be the same coin. Be that as it may there are either one or two of this date in existence. A fully struck, needle sharp example with a bold head with every detail visible, every star on the obverse is struck up completely. The reverse is just as sharp, from the details in the claw to the eagles eye. The fields are as expected fully bright proof. This coin suffers from a share of hairlines, most are fine but they are visible when you tilt the coin. Otherwise, the coin is completely free of any form of damage, is completely original and as made one hundred seventy-two years ago. Call this specimen **UNIQUE** or **EXCESSIVELY RARE**. This coin came from a three piece gold proof set that came to the marketplace in the early 1990's and has been in the client's collection since 1992 (#7715)

638 **1863. NGC graded Proof 63 Cameo.** From a proof only mintage of only thirty coins, with no business strikes all made on March 23rd, 1863 from a single pair of dies. Breen believed there were eighteen survivors, we can count twenty with the repeats at the grading services, but believe 12 or 13 to be the correct number. A fully struck, very choice example of a classic gold rarity. The obverse, a frosty head and bold stars, a bag mark on the neck, a hairline at the eye level is for identification purposes and some minor hairlines in the field. The reverse a semi-bright eagle on a proof field, with some hairlines as well. 1863 is either the rarest or the second rarest of all the Liberty Quarter Eagles, in front of or behind the 1854-S and then with the 1841 in third place. The best I can recall is Garrett (Ely), than Ullmer (Miles), and Eliasberg (Mills, Clapp). *Ex: Paul Nugget, Stanley Kesselman, Robert Hughes (Metropolitan Rare Coin), James Leeuw, various unnamed clients. Greysheet Quarterly shows \$40,000 bid and \$60,000 in the next grade (#97889)*

- 639 **1878. PCGS graded Proof 65 Deep Cameo.** From a mintage of 20 coins in proof. Of the twenty originally made, Breen estimates twelve survivors, but the actual number is between nine and ten. This example is a full struck gem cameo, every detail is struck up, the head and eagle are frosty on a bright proof background. There are two certified in this grade and none certified finer by either grading service. Prohibitively rare, condition census and probably finest known. There are no recent auction records for this classic rarity in this grade, but last year one a full grade lower sold for \$21,850 (#7904) *Ex: The Good River Collection II.*

- 640 **1900. NGC graded Proof 67 Ultra Cameo.** From a mintage of 205 proof coins. Repunched date as all proofs have. A fully struck superb gem cameo proof. Pristine and virtually flawless. One of fourteen coins equal to this one and only ten finer certified between the grading services (#7926) *Ex: The Good River Collection II.*

- 641 **1900. NGC graded Proof 66 Cameo.** From a proof mintage of 205 pieces only. This specimen is virtually as struck, with impeccable devices over deeply brilliant surfaces. 13 graded at this lofty level, with only 5 graded higher (#7852)

- 642 1905. NGC graded Proof 67 Cameo. Mintage for this date is 144 proof coins. A fully struck virtually flawless superb gem proof Liberty quarter eagle, lightly frosted devices on a brilliant field. Pristine and pleasing to behold extremely rare in this condition and condition census (#7931) Ex: *The Good River Collection II*.

- 643 1905. PCGS graded Proof 65. From a proof mintage of only 144 coins. Fully bright, fully gem in every way. Brilliant devices on a brilliant field. Old green PCGS holder (#7931)

- 716 **1883.** NGC graded Proof 65 Ultra Cameo. From an original proof mintage of 89, perhaps nineteen still exist in any grade, extremely rare in any condition. GEM, not a mark on the face, and only a couple of minor trivial hair lines which do not detract from the superb eye appeal. A highly desirable acquisition for the low mintage gold collector or \$3 specialist (#8047) *Ex: The Good River Collection II.*

Four-Dollar Gold

717

1879. Flowing hair. PCGS graded Proof 58. From a proof-only mintage of 425 coins. Housed in a PCGS grading holder, this historic nearly uncirculated quality Four-Dollar gold piece, or "Stella" as it came to be known, was proposed to solve a couple of problems facing the United States system of coinage in the 1870s. The first was to make a coin whose "intrinsic measure and value" as part of the design was sufficient to make it useful as an international trade coin. The other, as a bone tossed to the silver "interests" as they were called, was to strike these in an alloy that used either 4% silver or 10% silver, thereby increasing sales of this semi-precious metal by the silver mining states. For all its intended merits, the Stella project was soon abandoned. But only after 425 1879 Flowing Hair coins were minted, split into two groups, 25 of which are considered "originals" and made in 1879, followed by 400 strikes from the same dies made in 1880 after Congressmen got involved in the proposal and wanted representative samples, for purely altruistic purposes. This is among the most eye-catching Proof 63 examples bidders will see or third-party graders will certify. It has nice reflective "mirrors" that have a hint of satiny luster typical of the issue. The presence of faint striations running diagonally through Liberty's upper hair is also entirely consistent with the series of \$4 coins. On the present specimen, there is some central weakness which is diagnostic. No doubt this was a pocket piece at one time and still comes down to us this day from the family from which it descended the past 190+ plus years. As noted numismatic author David Tripp has pointed out, though most of these coins were saved, a few pieces made it into circulation, having been passed by members of Congress to proprietresses of Washington's bordellos. An endlessly popular denomination, the 1879 Flowing Hair \$4 Stella has long been prized as an integral part of a complete United States gold coin collection or Type set.

Extremely desirable in this grade, with only 15 coins graded in AU58 at both services, and with finer coins extremely expensive, this is a rare opportunity for a collector to obtain this legendary coin (#8057) *Ex: The W.M. Rosene and Walter Rosene Jr. Collection.*

Capped Bust Half Eagles

718 1795. Small eagle. NGC graded MS-61. From a low mintage of 8,707 for this date. A well struck, lustrous example of America's first gold coinage. The fields as well as the devices full frosty with gently rolling luster. Only widely spaced marks and hairlines account for the modest grade; without these, a higher numerical grade would be necessary from NGC.

One of the first acts of the new Mint Director, Henry William DeSaussure, after Pres. Washington had appointed him (1795) over his own protests, was to announce his two major ambitions for the Mint. The first of these was to place gold into circulation; the second, to improve all current coin designs. His predecessor, David Rittenhouse, about May 1795, had already ordered Robert Scot to prepare dies for half-eagle coinage. DeSaussure publicized the Mint's readiness to coin deposits of gold, and on July 31 he signed his first delivery warrant, authorizing the Coiner to transfer to the Treasurer of the Mint a batch of 744 half eagles. Between then and Sept. 16 the Mint released 8,707 pieces, thought to comprise 2,749 Wide dates (Breen encyclopedia estimate) and 5,958 Close dates. Die life in those days was excessively short die life, requiring the mint to resort to numerous die pairings to get this small number of coins minted. The Director interrupted coinage; otherwise the mintage might have been higher, because he wished the Coiner's Department to begin issue of eagles, or \$10 coins.

Robert Scot designed the 1795-98 Small Eagle coins. Scot's ultimate source for his obverse design is unknown. Probably he copied some unlocated engraving of a Roman copy of a Hellenistic goddess, altering the hair, adding drapery and an oversize soft cap. (This is not the pileus or liberty cap seen on other issues of America's coinage.)

This specimen is close to MS62 in quality, and is superior to some MS63 specimens we have seen. That being said, with MS62 coins selling in excess of \$100,000 today (\$109,250 6/06 and \$126,500 3/06), this offered coin could easily approach six figures. Trends is \$75,000 in MS61 which seems low, and Trends in MS62 is \$115,000, with CU valuing this rarity closer to \$135,000 (#8066)

- 719 **1795. Capped Bust Small eagle NGC graded AU-58.** Mintage for this date is 8,707 coins. Close date with four berries. The desirable first year of issue small eagle type half eagle. The obverse an excellent strike for the date, with a single bag mark hidden in the hair on a clean but lightly circulated planchet. The reverse showing no distracting marks. Overall, the coin looks great and other than honest wear acquired in commerce, there are no significant or important defects or damage of any kind. Probably very scarce in this condition. Wholesale bid is \$41,200 and five auction records in the past two years between 441,400 and \$51,750 (#8066)

- 720 **1803. 3 over 2. NGC graded MS-63.** From a mintage of only 33,506 coins. Heraldic Eagle reverse. With the 3 clearly struck over the 2. The obverse fully struck, with the date, stars and hair detail sharp, completely original and lustrous. The reverse is sharper yet, and a good match to the obverse in color. Very scarce in this condition. Current wholesale bid is \$20,000, with CW Trends at \$35,000 (#8084)

- 721 **1803. 3 over 2. PCGS graded AU-53.** Mintage of this coin is 33,506 coins. For the date and grade, a reasonably frosty, light golden example with decent luster on both sides. Attractively struck as well, with just a hint of softness at the complex areas of the reverse. Most probably, the early half eagles like this 1803, once they were distributed to the respective depositories, were retained by foreign banks and other depositories. After June 28, 1834, when the American gold coin specifications were changed and the authorized weights of gold coins changed, nearly all earlier American gold coins were rounded up and melted, as relying upon their face value was no longer a valid way for foreign holders to evaluate them; in light of new-weight gold coins produced on and after August 1, 1834 (the date of implementation of the Act of June 28, 1834). (#8084)

- 722 **1806 Round 6 NGC graded MS-63.** From a mintage of 54,417 coins. A better than average strike on a better than average planchet. Other than a single bag mark on the obverse, this example is completely free of impairments or damage. Excellent for the scarce and desirable type. CW Trends \$35,000 (#8089)

- 723 **1806. Round 6. NGC graded MS-63.** Mintage of this coin is 54,417 coins. Round 6, with seven stars left and six stars right. Extremely choice, boldly struck on the obverse, just a little light on the shield and claws on the reverse, with abundant original mint frost covering the entire coin. Eye pleasing, damage free with the overall look of a coin with a higher grade of preservation. Very scarce in this condition, and a first class type coin for a serious collector. Wholesale bid is \$19,950, with the last five auction sales in the past two years between \$17,250 and \$23,000 this past March. CW Trends \$35,000 (#8089)

- 724 **1807. Bust right. PCGS graded EF-40.** From a mintage of 32,488 coins. Above average strike and plenty of original luster and some minor ticks and hairlines. In an older green PCGS holder. Wholesale bid is \$4250. One sold in this grade this year at \$5290 (#8092)

Capped Draped Bust Half Eagles

- 725 **1808. NGC graded MS-63.** Mintage of this coin is 55,578 for this date. A choice original coin, with light adjustment marks made at the mint before striking under the date. A light original frost over most of the planchet surfaces and devices. With a bag mark over the eagles head, otherwise devoid of flaws or damage. Rare in this condition. Wholesale bid is \$17,500. CW Trends \$30,000 (#8102)

- 726 **1811. Tall 5. PCGS graded MS-63.** Mintage of this coin is 99,581. Tall 5. Fully struck with full details both obverse and reverse. Mellow light yellow-gold still covered with the original mint frost. A lovely example of the type is a high grade. One of only fifteen equal in this grade, with twelve certified finer, making this example very rare in this condition. Wholesale is at \$18,000, with auction records of between \$17,825 and \$24,150 for the five coins sold in the last few years. CW Trends \$30,000 (#8110)

- 727 **1812. PCGS graded AU-58.** Mintage of this coin is 58,087. A fully struck and clean to the eye example of either the date or type. Wholesale bid is \$7000, but recent auction records at \$9487, \$8912, and \$6900. CW Trend \$12,000 (#8112)

Just the lightest traces of hairlines and tiny marks the highest points of the devices. No major impairments and no trace of wear on the cap, hair, eagles beak and it leads us to suspect that this is a net grade rather than a full grade. In fact, we have seen worse coins certified with higher grade. Call it what you like, it is a fabulous example of this type. (#8564) Ex: *The Good River Collection II*.

- 805 **1801. PCGS graded AU-50.** Mintage for this date is 44,344 coins. A very well struck coin, completely original and with most of the original luster still present. The reverse is even better, and in an older PCGS holder. One sold last year for \$23,000 (#8564)

951

1914. NGC graded Proof 67. From a mintage of 50 proof coins. A fully struck superb gem satin proof Indian eagle. The obverse is pristine with two of the lightest hairlines possible only visible under a loop, the reverse is finer. Another case of when there have been more coins sent into certification than were actually minted, so duplication or multiple submissions rears its ugly head. Seven certified equal and none finer between the services. This coin is extremely rare in this condition. The last one sold in this condition brought \$64,000 and several one point worse in the middle \$40,000 range, so we will estimate this example at \$35,000 to \$75,000 (#8896) *Ex: The Good River Collection II.*

- 1234 **1924-S. NGC graded MS-64.** NGC Pop: 94. Well detailed for this more difficult S-mint issue, a high mintage year in which the vast majority were later melted, leaving a small residual number for collectors. This has the usual soft rounded rims and stronger centers of the San Francisco coins struck in the 1920s, with strike detail that adds considerably to the appeal of this nearly gem example.

The 1924-S is a famous double eagle rarity. At one time it was believed to be among the top dates in the series, practically surpassing the famous MCMVII Ultra High Relief and the Proofs of 1883 and 1884. The appearance of a specimen at auction sounded a gong for active buyers who came running. Today, following the tapping of overseas stockpiles, the 1924-S remains elusive, yet sufficient numbers are available that they come to market with regularity, although usually in lower Mint State grades (#9179) *Ex: The Good River Collection II.*

- 1235 **1924-S. ICG graded MS-63.** Lustrous with a touch of attractive toning at the bottom of the obverse (#9179)

St. Gaudens Double Eagles

- 1237 **1925-D. NGC graded MS-64.** Perhaps 500 coins exist of this fabled date in all grades, all the survivors of a mintage lost to the Great Melt of 1933. Almost all the known examples are imports from the French and German Banks that held them before the second war. This example is very scarce in this condition, with twelve coins certified as finer between both grading services. Well struck for the mint, and fully lustrous on both sides. Handsome, actually a pleasing example to look at with no impairments or even major bag marks, although close inspection reveals minor contact mark to the head for future catalogues to note for identification purposes (#9181) *Ex: The Good River Collection II.*

- 1431 **1915-S Panama-Pacific \$2.50 PCGS MS65.** PCGS graded MS-65. From a mintage of only 6,749 coins. Frosty over brilliant. Original in every way, and a couple of hairs otherwise pristine to the eye (#7450) *Ex: The Property of a Lady.*

1432 **1915-S Panama-Pacific \$50 Round PCGS MS65.** PCGS graded MS-65. A superlative original gem. The satin-like gleam of golden color is greatly enhanced and sound from most abrasions of measurable size and fits massively into its grading encapsulation - two and one half ounces massively, since that is what these weigh! Devices are, as expected, sharp in all areas, as struck, as desired by collectors.

In 1915 visitors from all over the world converged on a veritable new city that had been built of lath and plaster on the San Francisco shore front. Building upon the tradition established by the 1876 Centennial Exhibition (Philadelphia), 1892-1893 World's Columbian Exposition (Chicago), the 1900 Paris Exposition, the 1904 St. Louis World's Fair, and other such events, the Panama-Pacific International Exposition showcased marvels of technology, art, history, and science.

After the event ended, nearly everything was torn down. An exception was the Palace of Fine Arts, which, while never intended to be a permanent structure, survived to be used to store fire engines and other municipal equipment. In recent times it has been restored. This building in 1915 was the numismatic focal point of the Exposition. Under its huge dome was Farran Zerbe's Money of the World exhibit and, after the fair's closing, his concession to sell the remaining Panama-Pacific coins by mail order. The price of \$100 on these precluded all but the very wealthiest individuals from buying. For this reason, only 483 of the round format \$50 gold coins got sold. The rest were returned to the Mint and melted. (#7451) *Ex: The Property of a Lady.*

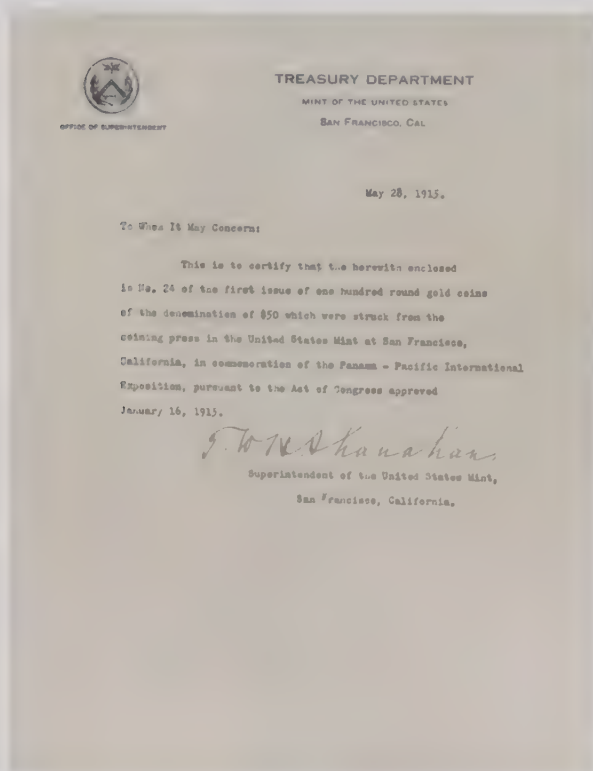

1433 **1915-S Panama-Pacific \$50 Octagonal PCGS MS65.** PCGS graded MS-65. Superb Gem Uncirculated. Flusive as a Gem and better, and certainly more challenging than the round \$50s in similar quality, as seen in the recent auction price realized stats. It is easy to see this piece was delivered a hard blow by the dies, and as is just as obvious, the dies were brand new and carefully set in the high-impact medal press to impart the requisite force, and which imparted their sharpness to the struck planchet.

Today the five different coins issued in connection with the Panama-Pacific International Exposition stand as the high-water mark of American commemoratives. The \$50 octagonal is legendary in U.S. federal coinage, both for its size (\$50 or two and one-half ounces of 900 fine gold) and format. The artistry was by Robert Aitken, noted sculptor and coin designer whose handiwork presents Minerva, goddess of the harvest, wearing a Corinthian plumed helmet. (The Romans identified their goddess of war as Minerva. She ranked third among their gods, after Jupiter and Juno. Minerva also was worshiped as the goddess of wisdom and of crafts, namely weaving and spinning.) Aitken used a more down-home emblem for his reverse, a "wise" owl perched upon a pine branch. Minerva's owl is golden and beautiful, and we'll just say "wise" on this foremost of all U.S. commemorative gold pieces! What a spectacular way to preserve the occasion than by this well struck, satin-gem Mint State 65 certified by PCGS. (#7452) *Ex: The Property of a Lady.*

- 1434 **1915-S Panama-Pacific Exposition Double Set Original Frame.** An Original Shreve & Co. Copper Frame for a Double Set of Panama-Pacific Commemorative Coins. This is one of the most prestigious examples of this popular commemorative item that we have ever offered in a long while. The copper frame is nicely paginated and free of the undue bumps, discoloration, and scratches, often seen on the few remaining examples. The felt lining is choice, while the deep purple paper caption cards under the coin slots are in excellent condition with nice fresh gold printing for the most part. The coins are not included (although they are all available in separate lots in this sale). A clearly important, indeed, an imposing item for the Panama-Pacific Commemorative Collector, it may be many years before a Shreve & Co. frame of similar quality becomes available. *Ex: The Good River Collection II.*

- 1435 **1915-S Panama-Pacific Exposition Original Documents.** Some creasing and foxing but otherwise as issued, rare. *Ex: The Good River Collection II.*

Similar coins have sold this year at auction from \$27,000 to \$39,000 in this same grade (#10016) *Ex: The W.M. Rosene and Walter Rosene Jr. Collection.*

- 1438 **1853 U.S. Assay Office \$20 Gold, 900 THOUS.** PCGS graded MS-65. Superb Gem Uncirculated and amongst the finest known. Kabin-18. The Assay Office struck gold coins and slugs in varying alloys, this being standard coin alloy of 90%, although the yellow-gold color suggest more silver in the 10% than copper, unlike coins made by the federal mints which were supposed to be 10% copper alloy only. The coin has a wonderful frostiness to it, everywhere including the well-defined eagle. The eagle is handsomely displayed on the obverse, its wings outstretched, holding in its beak a ribbon that is inscribed LIBERTY in raised letters. At its feet, a shield, while in its claw it grasps three arrows. The reverse contains a fancy design with rectangular tablet in the middle inscribed with UNITED STATES ASSAY OFFICE OF GOLD SAN FRANCISCO CALIFORNIA 1853." Comparative specimens have brought in excess of \$30-\$35,000. (#10013)

- 1439 **16.11 Oz. Natural Gold Nugget.** An unusually large, giant in fact, example of gold in its natural state. Rarely seen or offered in this form or this size, just like some of the old forty-niners must have seen it during the original gold rush. Looks to be of very high carat gold with minimal crystal matrix evident. Rare and desirable.

- 1440 **1850 Moffat & Company (San Francisco) \$5 Gold.** NGC graded EF45. NGC graded EF-45. Private or California Gold made in San Francisco, probably in 1854, possibly issue a mintage of 17,000, with the number in conjecture at best. All Moffat bullion gold dated 1850 were poorly struck and lack detail, possibly from the use of turned dies. The coin shown here, with no damage, major bag marks, the date or date damage as other sets. A very nice example of the type. Scarce for the entire surviving mintage. Slightly lower grades have traded for \$4500. Ex: *The Good River Collection II*

TERMS AND CONDITIONS OF SALE

- 1 This is a public auction sale conducted in Colorado, by bonded Auctioneers. The bonded Auctioneer is Superior Galleries, Inc. (hereinafter referred to as Auctioneer and at times as Superior).
- 2 Bidding in this sale constitutes acceptance by you of all the Terms and Conditions of Sale stated herein, (Bidder). Bidders include Consignors who retain their lots pursuant to their consignment agreement with Superior.
- 3 Superior reserves the right to include in any auction sale its own material as well as material from affiliated or related companies, principals, officers or employees. Superior may have direct or indirect interests in these, or other items, and may collect commissions. THIS PARAGRAPH SHALL BE DEEMED A PART OF THE DESCRIPTION OF ALL LOTS CONTAINED IN THE CATALOGUE.
- 4 Bidder acknowledges as follows: Grading is an art and not a science. The grade and estimated value herein represents the opinion of Superior or its Consignor(s). It is possible that two people will not always grade the same item alike. Also, as market conditions change, grading standards change, and will most likely continue to do so in the future. Each Bidder's own examination of the item(s) is the criterion and not the grade represented by another. Every effort is made by Superior to determine provenance and authenticity. It is the Bidder's responsibility to arrive at a final conclusion prior to bidding. In any purchase or sale, the value of the item(s) is determined by the price. THE BIDDER HEREBY ASSUMES ALL RISKS OF VALUE CONCERNING ANY AND ALL PURCHASES.
- 5 Pursuant to a separate agreement with Superior, Consignors or their agents may be permitted to bid on their own lots in the sale and may receive a rebate commission in whole or part if successful. Where the Consignor has re-purchased a lot and the lot is either returned to the Consignor or otherwise dealt with or disposed of in accordance with the Consignor's direction, or pursuant to contractual agreement, Superior reserves the right to so note in the prices realized or to omit a price from the price realized.
- 6 Superior may at its sole and absolute discretion, make loans or advances to Consignors and/or Bidders.
- 7 Superior may bid for its own account at any auction. Bidder acknowledges and agrees that Superior may not be required to pay a Buyer's Commission, or other charges that other Bidders may be required to pay and may have access to information concerning the lot(s) that is not otherwise available to the public. Any claimed conflict of interest or claimed competitive advantage resulting therefrom is expressly waived by all participants in the Sale.
- 8 Lot(s) may carry a Reserve. A Reserve is a confidential price or bid below which the Auctioneer will not sell an item or will re-purchase on behalf of the Consignor or for Superior. Estimates given are for the general guidance of the bidder and represent the opinion of the auctioneer as the fair market value of the numismatic item at the time of cataloging, based on experience and comparable sale, if applicable. The price realized may be higher, or lower than the estimate. If a lot is reserved, the reserve may not exceed the maximum estimated price.
- 9 The Auctioneer may open, or accept the bidding on any lot by placing a bid on behalf of the Consignor or his or her agent; a Bidder by mail, telephone or telefax; or any other participant in the Sale. The Auctioneer may accept or decline any bid, challenge to any bid or bidding increment, as the Auctioneer in their sole discretion shall determine. Bids must be for an entire lot and each lot constitutes a separate sale. No lot will be broken up unless otherwise permitted by the Auctioneer. Lots will be sold in their numbered sequence unless Auctioneer directs otherwise.

It is unlawful and illegal for Bidders to collude, pool, or agree with another Bidder to pay less than the fair value for lot(s). Bidders in the Sale acknowledge that the law provides for substantial penalties in the form of treble damages and attorneys' fees and costs for those who violate these provisions.

10. All material shall be sold in separate lots to the highest Bidder as determined by the Auctioneer. If any dispute arises, Auctioneer shall have the right to rescind the acceptance of the bid and place the lot(s) for Sale again. Auctioneer's decision shall be final. For the Mail Bidder's protection, no unlimited or buy bids will be accepted.

When identical bids are received for a lot, preference is given to the first bid received as determined by the Auctioneer. A mail bid will take precedence over an identical floor bid; a Floor Bidder and Telephone Bidder must bid higher than the highest mail bid to be awarded any lot. Auctioneer reserves the right to refuse any bid, to reduce any mail bid received, to open the bidding of a lot at any level deemed appropriate by the Auctioneer and to determine the prevailing bid, at his sole discretion.

11. All persons seeking to bid must have a catalogue and register to bid at the auction by completing a registration card or bid sheet. By submitting a bid, the Bidder acknowledges receipt of the catalogue. The Bidder further acknowledges that Bidder has read the Terms and Conditions of Sale, the descriptions for the lot(s) on which they have bid, and that they agree to adhere to these Terms and Conditions of Sale. This agreement shall be deemed to have been made in California. The Bidder acknowledges that the invoice describing a lot by number incorporates the catalogue and Terms and Conditions of Sale.
12. A Buyer's Commission of fifteen percent (15%) on each individual lot will be added to all purchases made by non-internet Bidders, except for reacquisitions by Consignors, regardless of affiliation with any group or organization, and will be based upon the total amount of the final bid. A reacquisition charge may apply to Consignors pursuant to a separate agreement, which may be higher or lower than the Buyer's Commission. **A Buyer's Commission of twenty percent (20%) will be added to all successful bids made via Ebay (www.ebay.com) and/or EbayLiveAuctions (www.ebayliveauctions.com). Internet bids made through Superior's website (www.sgbh.com) will be charged a fifteen percent (15%) Buyer's Commission.**
13. Unless otherwise agreed in writing, auction sales are strictly cash in U.S. funds payable through a bank in the United States. On any cash transaction or series of transactions exceeding 10,000, Treasury Form 8300 will be filed. Contact Superior for wiring instructions before sending a wire. Lots must be paid for the earlier of receipt of invoice or delivery. Superior reserves the right to decline to release lots for which good funds have not yet been received. On any accounts past due, Superior reserves the right to extend credit and impose periodic charges. Bidder agrees to pay reasonable attorneys' fees and costs incurred to collect on such past due accounts.
14. Payment by credit card will be accepted up to 10,000 from non-dealers only. We will not accept payment via credit card for any purchases over 10,000. Bids will not be accepted from those persons under eighteen (18) years of age without a parent's written consent which acknowledges the Terms and Conditions of Sale herein and agrees to be bound thereby on behalf of the Bidder.
15. Bidders personally and unconditionally guarantee payment that are or become owed to Superior. If a corporation is the Bidder, the corporate representative present at the sale shall provide Superior at the time of registration with a statement signed by each principal, director and officer that they each personally and unconditionally guarantee any and all current or future obligations owed to Superior.

TERMS AND CONDITIONS OF SALE CONTINUED

16. Bidders who have not established credit with Superior must furnish satisfactory credit references or deposit at least twenty-five percent (25%) of their total bids for that Auction Sale session(s) or such other amounts as Superior may, in its sole and absolute discretion, require before such bids will be accepted. Deposits submitted will be applied to purchases. Any remaining deposits will be promptly refunded, upon clearance of the funds.

17. ELITE AUCTIONS: AUCTION SALES ARE NOT ON APPROVAL. No certified coins may be returned because of possible differences of opinion with respect to the grade offered by any third-party certification service. No guarantee of grade or value is offered for uncertified Property sold and subsequently submitted to a third-party grading service. There are absolutely no exceptions to this policy. Under extremely limited circumstances, (e.g. gross cataloging error) a successful bidder, who did not bid from the floor, may request Auctioneer to evaluate the possibility of voiding a sale; requests to evaluate possibly voiding and auction sale must be made in writing detailing the alleged gross error, and submission of the lot to the Auctioneer for evaluation must be pre-approved by the Auctioneer; bidder must notify Superior Galleries, Inc. in writing of the such request and such notice must be mailed within three (3) days of the mail bidder's receipt of the lot. Lots submitted for evaluation must be in our offices within 30 days after Auction. Grading or method of manufacture do not constitute grounds for evaluation, nor do such complaints constitute a basis to challenge the authenticity of a lot. AFTER THAT 30-DAY PERIOD, NO LOTS MAY BE RETURNED FOR REASONS OTHER THAN AUTHENTICITY. Lots returned must remain intact in the original holder. No lots purchased by floor Bidders may be returned (including those Bidders acting as agents for others). Late payment for purchases may be considered just cause to revoke all return privileges.

MONTHLY COLLECTORS AUCTIONS: THREE (3) DAY RETURN POLICY. All lots paid for within seven days of the Auction closing are sold with a three (3) day return privilege. Lots may be returned under the following conditions: Within three days of receipt of the lot, you must first notify Auctioneer by phone (1-800-545-1001) or e-mail (info@sgbh.com), and immediately mail the lot(s) fully insured to the attention of Auction Returns, Superior Galleries of Beverly Hills, 9478 W Olympic Blvd, Beverly Hills, CA 90212. Lots must remain intact in their original holder and condition. You are responsible for the insured, safe delivery of any lots. A return fee of 5% of the purchase price (10 per lot minimum) will be deducted from the refund for each returned lot or billed directly. Postage and handling fees are not refunded. After the three-day period (from receipt), no items may be returned for any reason. Late payment for purchases revokes all Return-Restock privileges.

18. All prospective Bidders who have had the opportunity to examine the lot(s) prior to the Auction Sale, personally assume all responsibility for any damage that Bidder causes while handling or examining lot(s). Superior shall have sole discretion in determining the value of the damage caused, which shall be promptly paid by the prospective Bidder.

19. SUPERIOR IS NOT RESPONSIBLE FOR ANY ERRORS IN BIDDING. A Bidder should make certain to bid on the correct lot and that the bid is the maximum plus the Buyer's Commission (15% for non-internet bids, 20% for internet bids) that he or she is willing and able to pay. Once the hammer has fallen and the Auctioneer has announced the winning Bidder, the Bidder is unconditionally bound to pay for the lot, even if the Bidder has made a mistake.

20. Superior will not assume responsibility for the shipping and packaging of certain larger items or items of a more fragile nature sold in this sale as determined by Superior. It is the Bidder's responsibility to contact Superior after the sale to make shipping and packaging arrangements. Due to the fragile nature of some lots, Superior may be forced to charge additional shipping and handling. Lots indicated as being framed are shipped at the Bidder's risk.

21. DISCLAIMERS AND WARRANTIES

ALL ITEMS OFFERED IN THIS CATALOGUE ARE GUARANTEED TO BE AUTHENTIC. THIS IS A LIMITED WARRANTY THAT THE ITEM SOLD IS NOT COUNTERFEIT, THAT ITS DATE OR MINTMARK HAS NOT BEEN ALTERED, AND THE ITEM HAS NOT BEEN REPAIRED. ANY OTHER WARRANTY IS EXPRESSLY DISCLAIMED; THERE IS NO REPRESENTATION OR WARRANTY THAT A NUMISMATIC ITEM HAS OR HAS NOT BEEN CLEANED; THAT ANY TONING IS NATURAL OR ARTIFICIAL; THAT ANY ITEM WILL MEET THE STANDARDS OR GRADE OF ANY INDEPENDENT GRADING SERVICE; THAT ANY ITEM HAS A PARTICULAR PROVENANCE OR PEDIGREE, OR THAT AN ITEM IS STRUCK OR PRODUCED IN A PARTICULAR STYLE. ANY STATEMENT CONCERNING THIS IS A MATTER OF OPINION ONLY. NO WARRANTY, WHETHER EXPRESSED OR IMPLIED, INCLUDING A WARRANTY OF MERCHANTABILITY IS MADE WITH RESPECT TO ANY GRADE DESCRIPTION WHICH IS ONLY AN OPINION THAT IS LIKELY TO DIFFER, EVEN AMONG EXPERTS. PURCHASER HEREBY ASSUMES ALL RISKS CONCERNING AND RELATED TO THE GRADING OF A LOT.

a. All sales of items (1) viewed by Bidders in advance of a sale, even if the sale is by mail or telefax; or (2) bid upon by Floor Bidders, Telephone Bidders and Bidders who present Superior with a resale certificate, out of state resale certificate, or similar evidence in acting as a dealer; ARE FINAL AND MAY NOT BE RETURNED.

b. Any and all claims that an item is not authentic, must be made in writing to Superior within five (5) calendar days after receipt of the item.

c. If an item or items are returned pursuant to the terms herein, they must be housed in their original, sealed and unopened container.

d. Late remittance or removal of any item from its original container constitutes just cause for revocation of all return privileges.

e. Grading or condition of rare coins may have a material effect on the value of the item(s) purchased; and the opinion of others (including independent grading services) may differ with the independent grading services opinion or interpretation of Superior. Superior shall not be bound by any prior, or subsequent opinion, determination or certification by any independent grading service.

f. Questions regarding the minting of a coin as a proof or as a business strike relate to the method of manufacture and not to authenticity.

g. All oral and written statements made by Superior and its employees (including affiliated and related companies) are statements of opinion only, and are not warranties or representations of any kind, unless stated as a specific written warranty, and no employee or agent of Superior has authority to vary or alter these Terms and Conditions of Sale. Any alteration shall be effective only if in writing and signed by an officer of Superior authorized to do so.

h. Bidders shall have no recourse against the Consignor for any reason whatsoever.

i. Notwithstanding anything to the contrary in these Terms and Conditions of Sale, COINS LISTED IN THIS CATALOGUE GRADED BY PCGS, NGC OR ANACS CACHET, OR ANY OTHER THIRD PARTY GRADING SERVICE MAY NOT BE RETURNED FOR ANY REASON WHATSOEVER.

22. Superior reserves the right to withdraw any lot at any time, even after the hammer has fallen, until the Bidder has taken physical possession of the lot. No Bidder shall have a right to claim any consequential damages if a lot is withdrawn, even after the auction sale. Auctioneer will have the final discretion to determine the successful bidder, cancel the sale, withdraw the item, or to reoffer and resell the article during or in a future sale or return it to the consignor. If any dispute arises after the sale, the Auctioneer's decision is conclusive.

23. Taxes, postage, freight charges, if applicable, handling, insurance, Buyer's Commission, and any other fees required by law to be charged or collected will be added to the invoice for any lot(s) that is invoiced to successful Bidders. On any tax not paid by Bidder which should have been paid, even if not collected by Superior by mistake, error, negligence or gross negligence, Bidder agrees to promptly pay the same on demand together with any interest or penalty that may be assessed.
24. Bidder grants to Superior or its assigns the right to offset any sums due, or found to be due to Superior, and to make such offset from any past, current, or future consignment; purchases that are in the possession or control of Superior; or from any sums due to Bidder by Superior. Bidder further grants Superior a purchase money security interest in such sums or items to the extent applicable. Bidder agrees that Superior and its assigns shall be a secured party with respect to items bought by Bidder and in the possession of Superior, to the extent of the maximum indebtedness, plus all accrued expenses attorney fees and costs, until the indebtedness is paid. Bidder grants Superior the right to file a UCC on such items without need for Bidders signature, and to assign such interest to any affiliated or related company or any third party deemed appropriate by Superior.
25. In the event a successful Bidder fails to make payment when due, Superior reserves the right to resell the lot(s) in a commercially reasonable manner, which may include a private sale. Bidder agrees to pay for the reasonable cost of such a sale, together with any incidental costs of sale, including reasonable attorneys' fees and costs, cataloging and any other reasonable charges.
26. If the auction invoice is not paid for in full when due per invoice terms, the unpaid balance will earn interest at the rate of one-and-one-half percent (1-1/2%) per month until it is paid in full. In the event this interest rate exceeds the interest permitted by law, the same shall be adjusted to the maximum rate permitted by law. Bidder agrees to pay all reasonable attorneys' fees, court costs and other collection costs incurred by Superior or any affiliated or related company to collect past due invoices. Superior reserves the right to assign its interest to any third party.
27. Bidder expressly consents to the following Waiver and Release:

Bidder, for himself, his heirs, agents, successors and assigns, generally and specifically waives and releases, and forever discharges Superior, and its respective affiliates, parents, shareholders, agents, subsidiaries, employees, members of their respective boards of directors, and each of them, and their respective successors and assigns from any and all claims, rights, demands and causes of action and suits, of whatever kind or nature, whether in law or equity, whether known or unknown, suspected or unsuspected, which Bidder may claim to have with respect to and/or arising out of, or in connection with any challenge to the title to any goods purchased, the sale itself, and/or the auction, except where such reimbursement is otherwise authorized in these Terms and Conditions of Sale.

It is the intention of Bidder that this waiver and release shall be effective as a bar to each and every claim, demand, cause of action and suit that may arise hereunder, and Purchaser hereby knowingly and voluntarily waives any and all rights and benefits otherwise conferred upon him by the provisions of Section 1542 of the California Civil Code, which reads in full as follows:

A GENERAL RELEASE DOES NOT EXTEND TO CLAIMS WHICH THE CREDITOR DOES NOT KNOW OR SUSPECT TO EXIST IN HIS FAVOR AT THE TIME OF EXECUTING THE RELEASE, WHICH IF KNOWN BY HIM MUST HAVE MATERIALLY AFFECTED HIS SETTLEMENT WITH THE DEBTOR.
28. Title to any lot remains with Consignor, any secured party of the Consignor, or Consignor's assigns, as the case may be, until the lot is paid for in full by Bidder. Superior reserves the right to require payment in full before delivering any lot to the successful Bidder.
29. It is the Bidder's responsibility and obligation to have the lots fully insured while in his or her possession. Bidder assumes any and all RISK OF LOSS while the lot(s) is in Bidder's possession.
30. If a dispute arises concerning ownership of a lot that has been bid upon, Superior reserves the right to commence a statutory interpleader proceeding at the expense of the Consignor and successful Bidder and any other applicable party, and in such event shall be entitled to its reasonable attorneys' fees and costs.
31. All photographs in this catalogue are of the actual items being sold but may not be the actual size or to scale.
32. Superior reserves the right to postpone the auction sale or any session thereof for a reasonable period of time for any reason whatsoever. No Bidder shall have any claim as a result thereof, including incidental or consequential damages.
33. Neither Superior nor any affiliated or related company shall be responsible for incidental or consequential damages arising out of any failure of the Terms and Conditions of Sale, the auction or the conduct thereof and in no event shall liability for any such failure exceed the purchase price, premium, or fees paid.
34. Rights granted to Bidders under the within Terms of Conditions of Sale are personal and apply only to the Bidder who initially purchases the lot(s) from Superior. The rights may not be assigned or transferred to any other person or entity, whether by sale of the lot(s), operation of law or otherwise. Any attempt to assign or transfer any such rights shall be absolutely void and unenforceable. No third party may rely on any benefit or right conferred by these Terms and Conditions of Sale.
35. If the Bidder fails to comply with one or more of these Terms and Conditions of Sale, then, in addition to all other remedies which it may have at law or in equity, Superior may at its sole option, either (a) cancel the sale, retaining all payments made by Bidder as liquidated damages, it being recognized that actual damages may be speculative or difficult to compute, or (b) sell a portion or all of the lot(s) held by Superior, in a quantity sufficient in the opinion of Superior to satisfy the indebtedness, plus all accrued charges. More than one such sale may take place at the option of Superior. Notice of the sale shall be by U.S.P.S. Certified Mail, Return Receipt Requested to the address utilized on the Bid Sheet, Auction Consignment and Security Agreement or other last known address by Superior. Such sale will be at Superior's standard commission rates at public or private sale. The proceeds shall be applied first to the satisfaction of any damages occasioned by Bidder's breach, then to any other indebtedness owed to Superior, including without limitation, commissions, handling charges, the expenses of both sales, reasonable attorneys' fees, costs, collection agency fees and costs and any other costs or expenses incurred. Bidder is also liable to Superior if the proceeds of such sale or sales is insufficient to cover the indebtedness.
36. These Terms and Conditions of Sale and the auction shall be construed and enforced in accordance with, and governed by, the laws of the State of California, regardless of the location of the Auction Sale.

Bidder acknowledges and agrees that the competent courts of the State of California shall have exclusive jurisdiction over any dispute(s) arising hereunder, and Bidder hereby agrees that any dispute arising hereunder shall be litigated exclusively in the courts of the State of California, regardless of any party's current or future residence or domicile. Bidder further agrees that venue shall be in the Superior Court for Los Angeles County, in the State of California.
37. If any section of these Terms and Conditions of Sale or any term or provision of any section is held to be invalid, void, or unenforceable by any court of competent jurisdiction, the remaining sections or terms and provisions of a section shall continue in full force and effect without being impaired or invalidated in any way.

Lots which have been reacquired by the consignors have been excluded from this listing. It is possible, however, that prices have been listed for lots which were reacquired for the consignor by another individual instructed to bid on his behalf if such information was not available to Superior at the time this listing was printed. We recommend that you utilize several sources of information in establishing the market value of an item.

Superior Galleries of Beverly Hills Guarantees the Best Auction Results!

"Frankly, I can't imagine selling a valuable collection without a guarantee from the auctioneer. After all, a rare coin collection is a significant asset, and if an auctioneer is telling you that they can do a good job selling it, then they should be willing to guarantee their work. That just strikes me as the fair thing to do."

Silvano DiGenova, CEO, Superior Galleries of Beverly Hills

guarantee

1. guar-an-tee (noun). A promise or an assurance, especially one given in writing, that attests to the quality or durability of a product or service.

If you are considering selling your rare coins, then I'd like to make you a guarantee that will remove the guesswork and uncertainty from the auction process for you. If you consign to a Superior Galleries of Beverly Hills auction, I guarantee that your coins will sell for more money than any other auctioneer's guarantee. What's the catch? None. Just show me your coins, and if I believe that they are worth more (which is almost always the case), I will back up my opinion with a written guarantee that you will realize my higher estimate in a Superior Galleries of Beverly Hills auction.

Let's face it...auction firms don't like to talk about guarantees. They love to discuss estimates, and most firms will give highly optimistic estimates in order to entice consignors

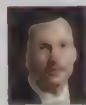

to do business with them. However, there is a world of difference between an estimate and a guarantee, and that is the difference between Superior Galleries of Beverly Hills and its competitors. When you consign with Superior Galleries of Beverly Hills, we will tell you exactly what your coins will sell for, and we will back up our evaluation with a simple, rock solid, written guarantee that you will achieve the results that we promise, or more.

So ask your auctioneer if they will guarantee the results that they tell you they can deliver. If they hesitate, equivocate or have to get back to you on that, then give us a call. You'll find our candor, expertise, and our straightforward way of doing business to be refreshing and rewarding.

Guide for Absentee Bidders

If you have never used our absentee bidding system, the procedure is quite simple. Before bidding, look through the catalogue and determine the lots in which you have an interest. Research the market value of these lots by checking price lists and other price guidelines. Once you have determined your bids on these lots, simply complete the Absentee Bidder Registration Form and Bid Sheet, and then mail or fax it to us as soon as possible. Absentee bidding allows you to participate in the auction as though you were in attendance. Many rarities are obtained through the medium of auctions and it can be a very exciting, as well as a rewarding method of obtaining wonderful items for your collection. We look forward to your participation in our sale. If you have questions or need further clarification on how to bid by mail or fax please contact the Superior Galleries Auction Department.
